How to Connect to the West Coast Institute Wireless Network
(Windows 7)

1) Before connecting to the Wireless Network it is important to configure the
Internet Browser proxy settings to auto-detect, to do this follow the steps
below:

a. Internet Explorer – Tools ➔ Internet Options ➔ Connections ➔ LAN
Settings ➔ Uncheck all boxes except for “Automatically detect
settings” and Click OK.

![Internet Explorer LAN Settings](image1)

b. Mozilla Firefox – Tools ➔ Options ➔ Advanced ➔ Network ➔
Settings… Uncheck all boxes except for “Auto-detect proxy settings for
this network” and Click OK.

![Mozilla Firefox Network Settings](image2)

2) Once your wireless capable laptop has detected a network within range you
will see the following icon in the bottom right corner;
Click the message to view the Wireless Networks within range.

3) Select the Wireless Network you wish to connect to, **WC-STUDENT** for Student Internet access or **WC-GUEST** for Guest Internet access (limited only to West Coast Institute’s website) and click **Connect**.
4) Once successfully connected to the selected Wireless Network, the following will be displayed:

![Connected Wireless Network](image)

5) Open any Internet Browser which should and you should see the website address re-direct automatically to the West Coast Institute Wireless Authentication page you will be presented with a security exception message for both Internet Explorer and Mozilla Firefox. You may have to disable pop-up blockers associated with the internet browser.

In order to continue to the authentication page, follow these steps:
For Internet Explorer, simply click “Continue to this website (not recommended).”

For Mozilla Firefox, click “I Understand the Risks” ➔ Add Exception... ➔ Then select the “Confirm Security Exception” button to continue.

![Authentication Page](image)
Enter your login credentials as described on the above login page if you are connecting to the Wireless Student Network and click Submit.

Remember your password is your date of birth, and must be entered in the format of DD/MM/YYYY. **(without the /’s)**
If you are connecting to the Wireless Guest Network, simply click the Accept button.

6) Username: 02studentnumber
   Password: DOB

   e.g.
   Username: 021234567
   Password: 01/01/1987

7) Upon successful authentication, you will be re-directed to the West Coast Institute of Training website.

8) If required, WCIT Students will also need to enter their student number and password for the proxy server when prompted.

From here you can navigate your internet access to external websites such as Google etc;

If you are still unable to connect you may have to try entering the proxy details for each campus,
To do so in Internet Explorer and firefox, got back to points 1 a & 1 b, and enter the appropriate proxy details according to which campus you are on, thank you!

**Note**

If you are on another WCIT campus other than joondalup, you will have to change the proxy details & port to reflect the campus you are on. Please see the following table

<table>
<thead>
<tr>
<th>Campus</th>
<th>Proxy</th>
<th>Port</th>
</tr>
</thead>
<tbody>
<tr>
<td>Kendrew (Joondalup)</td>
<td>10.163.138.195</td>
<td>80</td>
</tr>
<tr>
<td>Trades North (Clarkson)</td>
<td>10.165.42.195</td>
<td>80</td>
</tr>
<tr>
<td>McLarty Ave (Joondalup)</td>
<td>10.165.128.201</td>
<td>8080</td>
</tr>
</tbody>
</table>

If assistance or troubleshooting is required for connecting to the WCIT Wireless Network, please contact the IT Services on 9233-1040 or by visiting us (A Block – West, Ground Floor).
